Welcome to the Depository-Information Gathering Project.

Before beginning, we suggest that you print the entire document for review on paper and review the Glossary of Terms. Each will assist you with answering the questions. For help, contact: Robin D. Truesdale, Baker & McKenzie LLP (202) 835-1664; e-mail: Robin.Truesdale@bakermckenzie.com.

Note
* When reviewing/updating your prior year’s responses in the questionnaire, please ensure that the sub-questions are reviewed/updated as well.
* Please deselect/uncheck any responses in the sub-questions where those responses are no longer applicable.
* Please note: Any text in the “other” and/or “please explain/describe” questions should be deleted before deselecting the response. In this regard, note that deselecting a response with written text does not delete the information, it only hides the information from view.
* Any responses that appear in open text boxes should be deleted if the information is no longer applicable.

**SCOPE, STRUCTURE, OWNERSHIP, CAPITAL, REGULATION AND AUDIT**

The purpose of this section is to understand the ownership structure and financial strength of your institution, as well as the level of regulatory and operational supervision to which it is subject.

### Response Necessary/Eligibility Question

1. Rule 17f-7, by reference to Rule 17f-4, requires that, for a depository to be eligible to hold securities of U.S. registered investment companies (such depositories hereinafter referred to as “Eligible Securities Depositories”), the depository must be a “system for the central handling of securities where all securities of any particular class or series of any issuer deposited within the system are treated as fungible and may be transferred or pledged by bookkeeping entry without physical delivery of the securities.”

Are all securities of a particular class or series of any issuer that are deposited in your institution treated as fungible, and can they be transferred or pledged by bookkeeping entry without physical delivery of the securities?

- Yes
- No (please answer 1a)
- Other (please answer 1a)

1a. Please explain:

All securities of a particular class or series of any issuer that are deposited in Euroclear Bank are held on a fungible basis. With the exception of physical securities, they can be transferred or pledged by bookkeeping entry without physical delivery of the securities.

### Response Necessary/Eligibility Question

2. Rule 17f-7 also requires that an Eligible Securities Depository “acts as or operates a system for the central handling of securities or equivalent book-entries in the country where it is incorporated,” or “acts as or operates a transnational system for the central
3. What type of legal entity is the institution? (Choose all that apply.)

- Other (please answer 3a)

4. Is the institution operated as a "for profit" or a "not for profit" organization?
- For profit
- Not for profit
- Other (please answer 4a)

4a. If other, please explain:
We work every day to support stability in our existing markets and further developing local and global markets. We achieve this through long-term partnerships with our clients and through partnerships and collaboration with key market entities.

We are proud of our client-centric approach and remain driven by client needs rather than pure profit generation.

5. Please provide the names of the owners and their ownership interest percentages.
Euroclear Bank is a wholly owned subsidiary of Euroclear SA/NV.

Euroclear SA/NV is the parent company of the international and national central securities depositories ((I)CSDs) of the group. It owns the group’s shared securities processing platforms and delivers a range of services to the group's depositories.

Euroclear Holding is the top holding company of the Euroclear Group which owns, directly or indirectly, the entire issued ordinary share capital of the group companies.

6. Please answer the following:

6a. What is the date of establishment of the depository? 02/12/1968

6b. What is the date that the depository's operations began? 02/12/1968

7. Under what regulation or statute is the depository established and governed?
Belgian Royal Decree No. 62 dated November 10, 1967 Facilitating the Circulation of Securities, as amended from time to time; and Belgian banking law of 22 March 1993 and the new banking law of 25 April 2014 - entry into force on 07 May 2014 - on the legal status and supervision of credit institutions.

7a. Is the regulation or statute electronically available?  
- Yes (please answer 7b)
- No

7b. If regulation or statute is electronically available, please supply web address(es) here or upload document(s) in question 7c.

The laws and regulations that are applicable to the Euroclear System and which form its legal basis are published in the Official Gazette of the Kingdom of Belgium (accessible to the public at http://www.ejustice.just.fgov.be/cgi/welcome.pl).
In addition, legislation related to the financial sector can be consulted on the website of the Belgian Financial Services and Markets Authority (http://www.fisma.be) or on the website of the National Bank of Belgium (http://www.nbb.be).

7c. Please supply document(s) here:

7d. Please provide details of the structure and composition of your Board together with their industry experience and responsibilities in governing the depository.

What are the qualifications to become a board member?  
The Board has at least six members; there is no maximum prescribed by the Articles of Association. The Board shall be composed of suitable members of sufficiently good repute with an appropriate mix of skills, experience and knowledge of the Company and of the market.

The majority of the members of the Board are non-executive members. The Board shall comprise at least one third, but no less than two, independent members. Independence is defined in accordance with the applicable legal and regulatory requirements.
Appointments of individual Board members are subject to a prior assessment of his or her expertise and professional integrity (referred to as ‘fit and proper’, in accordance with local regulatory guidance), and to prior regulatory approval by the supervisory authority.

Board members must permanently comply with the ‘fit and proper’ requirements during their term of office. The Board must collectively have the appropriate balance of skills, experience, independence, knowledge, and diversity to fulfil its duties.

As part of the Company’s diversity policy, the Board composition must take account of the target and the timeframe regarding the representation of the underrepresented gender, as decided by the non-executive members of the Board.

You can read more in the document ‘Euroclear Bank board – Terms of Reference’ attached.

7e. What are the election procedures?  
In accordance with Belgian law, Board members are appointed by the shareholders. The Board submits to the shareholders its proposals regarding appointment and renewal/non-renewal of Board members, supported by a recommendation of the Nominations and Governance Committee.
When a Board member leaves the Board before the end of her/his term, the Board can appoint a new Board member to fill the vacancy with such appointment being confirmed by the shareholders at their next General Meeting.
Appointments of individual Board members are subject to a prior assessment of his or her expertise and professional integrity (referred to as ‘fit and proper’, in accordance with local regulatory guidance), and to prior regulatory approval by the supervisory authority.
The Company will also inform the supervisory authority of any proposed renewal of appointment, as well as of non-renewal and removal. Board members must permanently comply with the ‘fit and proper’ requirements during their term of office.

7f. What is the maximum length of time a board member can serve?  
Board members are appointed by the general meeting of shareholders for a term of up to three years (with possibility of renewal), in accordance with the Articles of Association and the Company’s Board and Board Committee Composition Policy.
The term of office of a Board member who is not re-appointed expires immediately after the relevant general meeting of shareholders.

7g. How are the voting powers distributed amongst the board members (i.e. does each board member have one vote or do certain members have additional voting power)?  
Each board member has one vote, and the Chair has the casting vote in case of equality of votes.
7h. Who is responsible for regulating the board members?
The prudential supervision of Euroclear Bank, and therefore the Board members of Euroclear Bank, falls under the responsibility of the National Bank of Belgium.

We are also subject to the supervision of the Belgian Financial Services and Markets Authority (FSMA) for the matters that fall within its competencies (such as conduct of business rules deriving from the Markets in Financial Instruments Directive (MiFID), protection of client’s assets, market abuse and conflicts of interests).

Response Necessary/Eligibility Question

8. Rule 17f-7 requires that an Eligible Securities Depository “is regulated by a foreign financial regulatory authority as defined under section 2(a)(50) of the Act”, with section 2(a)(50) establishing that “‘foreign financial regulatory authority’ means any (A) foreign securities authority, (B) other governmental body or foreign equivalent of a self-regulatory organization empowered by a foreign government to administer or enforce its laws relating to the regulation of fiduciaries, trusts, commercial lending, insurance, trading in contracts of sale of a commodity for future delivery, or other instruments traded on or subject to the rules of a contract market, board of trade or foreign equivalent, or other financial activities, or (C) membership organization a function of which is to regulate the participation of its members in activities listed above.”

- Yes (please answer 14a)
- No (please proceed to 15)

14a. If yes, what areas does the audit cover (financials, operations, etc.) and which department in your depository handles it?

Internal Audit has set up a comprehensive audit universe, including all processes and services carried out by the group and all locations, whether directly or outsourced. Audits are issued on a continuous basis.

The Internal Audit Charter stipulates that the Head of Audit should report to a level within the organisation that allows Internal Audit to fulfil its responsibilities, with proper independence in determining the audit universe, audit plan and scope of internal audit reviews, performing work and communicating results.

The internal audit plan covers the full audit universe and is presented quarterly for approval by the Management Committee and the Audit Committee of Euroclear Bank. Therefore, financial and operational audit is conducted. Custody operations are audited at least every two years.

As part of reporting the results of an audit, management states an action that will be undertaken to address the finding raised including the target date and this is followed up by Internal Audit when the target date is reached. All material exceptions would also be monitored on a quarterly basis by internal audit.

14b. Please list the date of your last internal audit:

- Margin maintenance
- Custody event management
- Reporting

Collateral management services are available during the batch and the real-time processes.

Collateralised loans in our securities lending programmes:

All loans in our GC Access and Securities Lending and Borrowing programmes are fully collateralised. Collateral delivered for GC Access loans is transferred from the borrower to Euroclear Bank under a first ranking pledge and from Euroclear Bank to the Lender under a first ranking pledge. The collateral is held in an account in the name of the Lender. For SLB loans, collateral is earmarked under a first ranking pledge.

Euroclear Bank will perform a daily mark-to-market of the value of the loan and of the collateral securities to ensure that at any time there is sufficient collateral in line with Euroclear’s collateral criteria (including haircuts, loan add-ons, cross-currency margins, concentration limits, etc) to cover the loan exposures. Additional collateral required is automatically selected, posted or blocked when needed.

35d. If other services, please explain:
As an ICSD, we provide the following core services and sub-services:

- Other (please answer 37d)

37a. Credited to the cash account: (Choose all that apply.)

- On pay date.
- On pay date +1.
- On pay date +2.
- Other (please answer 37b)

37b. If other please explain:

Income payments are credited once a day at the beginning of the batch process. We either:

- advance the payment on the expected value date (on-time payment)
- wait until receipt and reconciliation of funds (deferred payment)

In the majority of cases, we credit proceeds during the batch process that precedes the expected value date of the payment date (advance payment). This provisional cash credit becomes final upon receipt and reconciliation of funds. Credit can be reversed if timely payment is not received from the issuer.

Cash proceeds for fixed income securities from investment grade rated issues or issuers, i.e. those rated equal to or higher than BBB-(FitchRatings/Standard & Poor’s) or Baa3 (Moody’s), are generally advanced.

Linkages With Other Central Securities Depositories (CSD) or International Central Securities Depositories (ICSD)

38. Please list all depositories or settlement systems to which you have an electronic link.

We have electronic links to all our depositaries (sub-custodians) and cash correspondents. You can find a list of sub-custodians/CSDs on our website my.euroclear.com > Market directory.

39. Are procedures and controls (firewalls) in place to avoid systemic collapse or contamination if one of the linked entities should experience business interruptions for whatever reason?

- Yes (please answer 39a)
- No (please answer 39a)
- Other (please answer 39a)
- Not applicable

39a. Please explain:

The service level agreements we have with third parties (communication providers, cash correspondents, depositaries, etc.) contain detailed contingency and escalation procedures. And we monitor these service levels on an on-going basis.

Technically, the connections with the linked entities are set up in an isolated zone, and each connection is separated from the internal network by a firewall.

Our crisis plans also include an action-oriented checklist for the tactical team to respond to the potential failure of a depository (sub-custodian). Depending on the type of scenario (e.g. isolated or market failure), this plan includes a set of actions aimed at minimising the impact on our clients and ensuring a swift move of business to another third party.
40. Has a business interruption recovery plan been developed in the event the linkages should become inoperable for any reason?
- Yes
- No (please answer 40a)
- Other (please answer 40a)
- Not applicable

ACCOUNT STRUCTURES AND RECORDKEEPING

The purpose of this section is to identify the nature of accounts; the naming convention is employed, the level of segregation achieved, accessibility in the event of bankruptcy and the frequency of reporting generated from them.

Response Necessary/Eligibility Question
46. Rule 17f-7 requires that an Eligible Securities Depository “provides periodic reports to its participants with respect to its safekeeping of assets, including notices of transfers to or from any participant’s account.”

Does the depository make available periodic safekeeping reports to participants, including notices of transfers to or from the participant's account?
- Yes (please answer 46b)
- No (please answer 46a and then proceed to 48)
- Other (please answer 46a)

46b. If yes, please indicate the scheduled frequency: (Choose one.)
- Daily
46c. If other, please explain:
Certain reports showing securities and cash movements to and from Participant accounts are also available in real-time.

For an overview of the settlement and cash reporting available via EasyWay and SWIFT, please refer to the 'Settlement reporting quick card' and 'Cash and credit reporting quick card' attached.

47. What is your document and record retention policy for documents and records described above in this section? (Choose one.)

- 6 months or less
- 1 year
- 3 years
- 5 years
- 7 years
- Other (please answer 47a)

47a. If other, please explain:
As data must be archived for legal, regulatory, contractual or business reasons, the retention periods differ depending on the information category.

The retention periods differ depending on the information category, e.g. contractual data, client identification data, transaction data, fiscal data, accounting data etc. For example, contractual data is retained for ten years after end of relationship except if otherwise specified in the contract, client identification data is retained for minimum five years after the end of the commercial relationship, transactional data is retained for minimum five years after the execution of the transaction, securities data is retained for a minimum of five years.

As from the time that Euroclear Bank operates under its Central Securities Depositories Regulation (CSDR) licence, Euroclear will comply with Article 29 of the CSD 585 Regulations (EU) No 909/2014, under which all data in the scope of our CSDR operations will be retained for a period of 10 years.

This guide was launched at the end of 2013 and was created in cooperation with different law firms around the world. Stibbe’s Benelux teams of specialists prepared the chapters covering the most important regulations and obligations for document retention in Belgium, the Netherlands and Luxembourg.

SETTLEMENTS

The purpose of this section is to identify the model of settlement employed, the relationship between cash and securities, and the basis on which participants meet their obligations.

48. The Committee on Payment and Settlement Systems of the Bank for International Settlements (BIS) has identified three common structural approaches or models for linking delivery and payment in a securities settlement system. Please indicate which model your procedures most closely resemble (Please refer to details on the models within the "Help" section located below this question): (Choose all that apply.)

- Model 1 - Gross, Simultaneous Settlements of Securities and Funds Transfers. (please answer 48a)
- Model 2 - Gross Settlements of Securities Transfers Followed by Net Settlement of Funds Transfers. (please answer 48a)
- Model 3 - Simultaneous Net Settlement of Securities and Funds Transfers. (please answer 48a)
- Not applicable
- Other (please answer 48b)

48a. Please briefly describe your settlement process, including how your settlement procedures may vary from the model chosen above (and as described below in the Help section)?
The Euroclear system used by Euroclear Bank is a Model 1 DVP system, because transactions between Participants are settled on a trade-by-trade basis, with simultaneous and final transfers of cash and securities in the books of Euroclear Bank.

The system controls the availability of the cash and securities provisions before executing the instructions (i.e. 'positioning'). If the cash and/or the securities are not available, the transaction will not be
Are the cash and security movements simultaneous?

Model 3 - Simultaneous Net Settlement of Securities and Funds Transfers. These systems settle transfer instructions for both securities and funds on a net basis, with final transfer of both occurring at the end of the processing cycle. Settlement may occur once a day or several times a day. The securities settlement system maintains securities accounts for participants. Funds accounts may be maintained by another entity, either a commercial bank or the central bank. During a processing cycle, running balances of funds debits and credits are calculated. All funds and securities transfers are provisional until the end of the processing cycle, at which time book-entry transfer of securities takes place. If and only if all participants have sufficient balances of funds and securities, final transfers of the net securities balances and net funds balances are executed.

Yes
No (please answer 49a)
Not applicable
Other (please answer 49c)

49c. If other, please explain:
Settlement instructions can be against payment or free of payment.

For against payment instructions, Euroclear Bank operates a Model 1 DVP system.

Transactions between Euroclear Bank clients are settled on a trade-by-trade basis, with simultaneous and final transfers of cash and securities in the books of Euroclear Bank.

Settlement over the Bridge with Clearstream also takes place according to DVP Model 1, because there is a simultaneous and final transfer of cash and securities between Euroclear Bank and Clearstream via the mutual cash and securities accounts that each holds with the other after each exchange. There are several exchanges each night and an Automated Daytime Bridge during the day.

Settlement over the Bridge with Clearstream Banking Luxembourg (CBL) also takes place according to Model 1 DVP, because there is simultaneous and final transfer of cash and securities between Euroclear Bank and CBL via the mutual cash and securities accounts that each holds with the other after each exchange. There are several exchanges each night and an Automated Daytime Bridge during the day.

External transactions (i.e. transactions that settle in a local market between a Euroclear Bank...
client and a local counterpart, which is typically a member of the local Securities Settlement System (SSS) follow the DVP rules (if any) of the local market. Local market regulations and operating practices determine settlement with external counterparties, finality, and whether or not settlement takes place on a DVP basis.
OWNERSHIP OF SECURITIES

The purpose of this section is to determine how ownership of securities is represented, the ways the depository maintains ownership or control of securities held in the depository, and the extent to which ownership of assets held by the depository is separated from the proprietary assets of the depository.

50. How are depository eligible securities held by the depository?
- Securities in the depository are held in dematerialized form.
- Securities in the depository are held in certificated form.
- Other (please answer 50a)

51. If depository eligible securities are certificated, can depository eligible securities be held outside of the depository?
- All eligible securities must be held in the depository. (please answer 51b)
- Securities may move freely into and out of the depository. (please answer 51h)
- Once entered into the depository, eligible securities must remain in the depository. (please answer 51b)
- Certain designated securities may be held outside the depository. (please answer 51a)
- Not applicable
- Other (please answer 51k)

51k. If other, please explain:
Euroclear Bank does not maintain its own vaults.
Physical securities deposited in the Euroclear System are held in the vaults of depositaries/sub-appointed by Euroclear Bank or in the vaults of a Central Securities Depositories (CSD) where Euroclear Bank or its custodian maintains an account.

52. If securities are dematerialized:

May dematerialized security positions be re-certificated and held outside the depository?
- Yes (please answer 52a)
- No (please answer 52a)
- Not applicable
- Other (please answer 52j)

52d. If the securities held by the depository are recorded by book entry at the registrar, are the securities registered only to the depository, with the depository providing the function of recording ownership on a centralized basis for the market? (Choose all that apply.)
- Yes (please answer 52e)
- No (please answer 52g)
- Other (please answer 52l)

52g. If the securities held with the depository are recorded by book-entry at the registrar but are not registered exclusively to the depository, may they be registered to:
- The beneficial owner
- A nominee
- Other (please answer 52h)
52h. Please describe:
Registered securities and dematerialised securities deposited in the Euroclear System are recorded in the register in the name of either:
- one of our nominee companies
- the Depository for the issue
- in 'street name'; depending on the market, the 'street name' is the name of a broker or other institution holding the securities for its customer(s) or the name of a previous holder
- another name as we consider appropriate.

52i. If the securities held with the depository are recorded by book-entry at the registrar, what are the control features at the registrar for transfer of registrar positions to and from the depository (e.g., authentication procedures, reconciliation, confirmation of position at registrar)? Please describe:
Each registrar and issuing company select the control features applicable to the actions of such registrar for the securities issued by such companies in accordance with applicable contractual provisions, local law and/or market practice.

Euroclear Bank does not review or monitor the control features of such a registrars.

52j. If other, please explain:
In some markets, it is possible to re-certificate dematerialised securities. In other markets, such as France, this is not possible.

Response Necessary/Eligibility Question

53. Rule 17f-7 requires that an Eligible Securities Depository “maintains records that identify the assets of each participant and segregate the system’s own assets from the assets of participants.”

Does the depository maintain records that identify the assets of each participant and segregate the system's own assets from the assets of participants?
☐ Yes
☒ No
☐ Not applicable (please answer 53a)
☐ Other (please answer 53a)

54. Does the law protect participant assets from claims and liabilities of the depository?
☒ Yes
☐ No
☐ Not applicable
☐ Other (please answer 54a)

54a. If other, please explain:
In accordance with Belgian law and Section 4 of the Terms and Conditions and Section 2.4 of the Operating Procedures, Euroclear Bank does not acquire any ownership interest in the securities deposited in the Euroclear System.

Securities deposited in Euroclear Bank by clients are protected by Royal Decree No. 62 on the deposit of fungible financial instruments and the settlement of transactions, which gives Participants ownership rights in the pool of assets of the same issue of securities. In case of Euroclear Bank’s insolvency, you retain your ownership rights in the pool of securities.

Cash deposited with Euroclear Bank is not protected. Euroclear Bank becomes the legal owner of any cash deposited whilst clients retain a contractual right to the cash they deposit with us.

It is worth noting that Euroclear Bank has been highly rated by Standard & Poor's and Fitch Ratings for the last ten years, reflecting the effectiveness of our risk controls and strong risk management. As a single-purpose bank, we have no financial issues.

55. Can the depository assess a lien on participant accounts? (A lien would entitle the depository to take and hold or sell the securities of the participant in payment of a debt.)
☒ Yes (please answer 55a)
☐ No
55a. If yes, for what reasons are liens or similar claims imposed? (Choose all that apply.)
- Fees and expenses
- Collateralization of overdrafts
- To secure payment for purchased securities
- Other (please answer 55b)

55c. Please indicate the limits of this lien as indicated below: (Choose one.)
- The lien is limited to securities in the participant’s proprietary account.
- The lien is limited to securities in the course of purchase and sale transactions, but does not extend to settled positions.
- The lien may extend to settled client positions. (please answer 55d)
- Other (please answer 55d)

55d. Please explain:
The statutory lien secures any claim we have against you arising in connection with the clearance or the settlement of transactions through, or in connection with, the Euroclear System, including claims resulting from loans or advances. You can find detailed information about the lien and pledge in favour of Euroclear Bank in section 3.5 of The Operating Procedures of the Euroclear System.

As a rule, this lien only covers a client’s proprietary assets, but it may extend to client assets under certain circumstances set forth in the law. If you have a legal requirement to do so, you may ask Euroclear Bank to issue a ‘no lien’ letter. By issuing this letter, Euroclear Bank waives its statutory lien over assets you hold on behalf of your underlying clients in specific Securities Clearance Accounts and/or Cash Accounts. You must separately and expressly identify these accounts in writing to Euroclear Bank.

If you have agreed that the statutory lien applies to customer securities, the statutory lien on such securities only secures claims we have against you arising in connection with the clearance or the settlement of transactions through, or in connection with, the Euroclear System, carried out on behalf of your customers including claims resulting from loans or advances.

55e. If a lien is placed on a participant's account which has been designated for its clients, will the depository select certain securities to be subject to the lien?
- Yes (please answer 55f)
- No (please answer 55h)
- Other (please answer 55n)

55h. If no, please indicate whether the entire account will be subject to the lien.
- Yes
- No
- Other (please answer 55i)

55i. If other, please describe:
Normally an account designated as solely for customer securities is not subject to a lien.

However, if a Participant requests a credit line and asks to secure that credit line with assets held in such accounts (with the consent of its customer(s)), the lien granted by such participant to Euroclear Bank is a ‘floating lien’ and, thus, would extend only to securities with sufficient collateral value to cover the borrowings of the participant.

55j. For accounts designated as client accounts, do procedures exist to restrict the placement of liens only to obligations arising from safe custody and administration of those accounts?
- Yes (please answer 55k)
- No
- Other (please answer 55m)

55l. Please explain:
55m. If other, please explain:
As noted earlier, normally an account designated as an account solely for customer assets is not subject to a lien, even for obligations arising from safe custody and administration.

However, if a participant requests a credit line and secures that credit line with assets held in such accounts (with the consent of its customer(s)), the lien granted would not be restricted to obligations arising from safe custody and administration. Such a lien would be restricted to securities with sufficient collateral value to cover the borrowings of the participant.

56. Transfer of Legal Ownership

Does the depository have legal authority to transfer title to securities?

- Yes (please answer 56a)
- No
- Not applicable
- Other (please answer 56e)

56b. Please describe:
Entitlement to depository securities passes between participants when the transaction is processed either during the overnight settlement processing period or intra-day during the real-time processing.

56e. If other, please explain:

HANDLING OF SECURITIES OUTSIDE THE DEPOSITORY ENVIRONMENT

The purpose of this section is to consider the process (and any risk inherent within such a process) that involves the safekeeping of client assets while they are being removed from a depository and being lodged into a depository.

57. How are eligible securities lodged (that is, placed) in the depository system? (Choose all that apply.)

- A registered certificate in the name of the depository is delivered to the depository.
- A participant delivers the security with a valid transfer deed or stock power or other transfer document to the depository which then effects registration.
- A registrar re-registers the security in the name of the depository.
- Other (please answer 57a)
- Not applicable

57a. Please describe:
Eligible securities are lodged by credit of securities to our account with the CSD or sub-custodians. Registered securities deposited by clients in the Euroclear System are generally registered or held in sub-custody in a nominee name selected by Euroclear Bank or by the Sub-custodian (i.e. Depositary). This is only done in markets where the use of a nominee is permitted.

58. When are securities lodged into the depository reflected in a participant’s depository account? (Choose all that apply.)

- Securities are reflected in the participant depository account immediately upon delivery to the depository.
- Securities are re-registered prior to being reflected in the participant’s depository account.
- Other (please answer 58a)
- Not applicable

58a. Please explain:
Should securities be confirmed to our account after the close of our real-time platform, these securities are credited into the participant’s account at the next possible opportunity being our overnight batch processing.
59. How long does it usually take to lodge securities with the depository? (Choose one.)
- 1 to 2 days
- 3 days to 1 week
- 2 to 4 weeks
- More than 4 weeks (please answer 59a)
- Not applicable
- Other (please answer 59b)

59b. If other, please explain:
The time period required depends on the type and form of the security, the procedures of the relevant Euroclear depository accepting such securities, local law and local market practice in regards to transfers of ownership of securities. Accordingly, such transfers may be completed in a matter of hours or may require more than 4 weeks.

60. During the process of lodging securities into the depository, can the securities: Be traded?
- Yes
- No (please answer 60c)
- Not applicable
- Other (please answer 60c)

60a. During the process of lodging securities into the depository, can the securities: Be settled?
- Yes
- No (please answer 60d)
- Not applicable
- Other (please answer 60d)

60b. During the process of lodging securities into the depository, can the securities: Have ownership transferred?
- Yes
- No (please answer 60e)
- Not applicable
- Other (please answer 60e)

60d. If they cannot be settled, or if you answered other, please explain:
Trades of securities can only be settled by Euroclear Bank under the premise that the participant has received the securities in their Securities Clearance Account. Securities have to be available in the participant’s account in order for settlement to take place.
[Except in certain markets explicitly noted in the Operating Procedures of the Euroclear System where a provisional credit of securities may be authorised].

61. Are securities immediately available for delivery upon transfer to the depository?
- Yes
- No (please answer 61a)
- Not applicable
- Other (please answer 61d)

61d. If other, please explain:
Should securities be confirmed to our account after the close of our real-time platform, they are credited into the participant’s account at the next possible opportunity being our overnight batch processing.
62. Please describe briefly the arrangements/procedures/facilities you maintain to ensure that eligible securities held at the depository are handled at least as efficiently as compared to securities held outside the depository, particularly in relation to income, corporate actions and proxy services.

We provide efficient income, corporate actions and proxy services on securities held with us. We have a well-established process in place to proactively foresee and manage the collection of both information and proceeds on behalf of our clients.

We receive information from many sources including:
- data vendors
- the issue documentation (prospectus or indenture) which is often very extensive
- our depositories in the local market
- central securities depositories ("CSDs")
- stock exchanges (e.g. LSE, Euronext)
- the financial press
- issuers and their agents (due to our role as an international CSD)
- fiscal authorities.

Once information is received from our trusted sources, we apply a quality control by cross-checking the different information. The verified data is then stored on our corporate actions database and made available to you via a wide range of reporting channels.

63. What transfer process steps are involved when eligible securities are withdrawn from the depository for safekeeping? (Choose one.)

- Securities are re-registered into the name of the beneficial owner or a nominee.
- Securities are re-certificated and re-registered into the name of the beneficial owner or a nominee.
- Securities are re-certificated and delivered as bearer instruments.
- Securities are transferred as is any physical delivery in the market.
- Other (please answer 63a)
- Not applicable.

63a. Please specify:
All of the above and any other method can apply in accordance with applicable local law and market practice in the relevant jurisdiction.

64. How long does it usually take to remove securities from the depository? (Choose one.)

- 1 to 2 days
- 3 days to 1 week
- 2 to 4 weeks
- More than 4 weeks (please answer 64a)
- Not applicable
- Other (please answer 64b)

64b. If other, please explain:
We are capable of debiting securities in real time upon receipt of delivery instructions. The time period required for the beneficiary to receive these depends entirely on the type and form of the security, the procedures of the relevant Euroclear depository accepting such securities and local law and market practice as in regards to transfers of ownership of securities. Accordingly, such transfers may be completed in a matter of hours or may require considerably more time, up to several weeks.

65. While the securities are being removed from the depository, can they:

65a. Be traded? (Choose one)

- No (please answer 65b)
- Not applicable
- Yes
65c. Be settled?
- No (please answer 65d)
- Not applicable
- Yes
- Other (please answer 65d)

65d. Please explain:
Once securities have been debited from a Participant’s Securities Clearance Account, another delivery of such securities will not be able to settle in Euroclear Bank as these securities are no longer available.

65e. Have ownership transferred?
- No (please answer 65f)
- Not applicable
- Yes
- Other (please answer 65f)

STANDARD OF CARE

- Not applicable no vault is maintained
- Electronic keys/combinations
- Dual access control
- Visitor logs
- Vault counts (please answer 75a)
- Intrusion alarms
- Fire alarms
- Guards
- Other (please answer 75b)

75b. Please explain:
Euroclear Bank does not maintain its own vaults. Physical securities deposited in the Euroclear System are held in the vaults of sub-custodians (custodian banks, referred to as Depositories) appointed by Euroclear Bank or in the vaults of a Central Securities Depositories (CSD) where Euroclear Bank or its custodian maintains an account.

Our sub-custodians are contractually required to clearly segregate and label the physical securities as being held on behalf of Euroclear Bank. The security procedures are per the local market standard and practise. For Depositories holding physical securities, regular due diligence reviews include a visit to the vaults, where Euroclear Bank carries out:

- a check of the security and control procedures in and outside the vaults
- a spot check for a certain number of securities to check the physical integrity of the securities, if the coupons are attached, the serial numbers of the securities and that the holdings in the vaults correspond to our records

76. If a participant defaults, how is the loss covered? (Choose all that apply?)
- Depository insurance covers the loss (please answer 76a)
- The depository guaranty fund covers the loss
- Loss is shared among participants (please answer 76b)
- Other (please answer 76d)
- Not applicable

76d. Please explain:
Section 3.8 of the Operating Procedures of the Euroclear System, states that, upon your default, we have the right to retain cash or securities up to an amount which we in our reasonable opinion believe, based on the portfolio composition and history of occurrence of default of the issuer of such securities, will cover any amount due or that may become due to us by you.

Furthermore, if your counterparty defaults, your assets are protected as no securities will be delivered unless the payment from the counterparty is in place, and vice versa. There is a simultaneous exchange of securities and cash.

77. During the past three years, has there been a situation where a participant defaulted which resulted in a significant loss?
- Yes (please answer 77a)
- No
- Not applicable
- Other (please answer 77a)

78. Does the depository have a guaranty fund independent of stock exchange or other market guarantees?

- Settlement controls that minimize or eliminate the risk of default by a participant (please answer 79d)
- Blocking of securities movement before receipt of payment
- Blocking payment until securities are moved
- Other forms of risk management used for assessing and monitoring participant exposures (please answer 79i)
- Not applicable

79b. Please explain the requirements:
We offer credit facilities on a secured and uncommitted basis, to ease your settlement and custody activity. Any borrowings are therefore of a short-term nature, mostly intra-day.
As credit is provided on a secured basis, clients must provide collateral in order to be in debit (daylight and overnight). Please note that having a credit line is not a requirement to use the Euroclear System.

79c. Please explain how these debit caps work:
If a client exceeds their overdraft limit (or if the collateral is insufficient to support the credit line), their settlement or cash instruction will be blocked. If this happens, clients can contact our Credit Monitoring team who will help them dealing with operational credit problems or queries.

79d. What type or types of settlement controls (Choose all that apply.)
- Blocking or freezing of securities positions (please answer 79e)
- Controlling DVP settlement (please answer 79f)
- Simultaneous DVP (please answer 79g)
- Other (please answer 79h)

79e. Please explain:
If the securities are subject to a ‘floating lien’, used as collateral to secure a client’s credit line, we will prevent the securities from leaving the client’s Securities Clearance Account.

79f. Please explain:
For against payment instructions, Euroclear Bank operates a Model 1 DVP system. Through this we ensure that principal risk is eliminated through simultaneous transfers of cash and securities. Through the positioning stage of the settlement lifecycle, our systems verify the availability of the cash/or credit line and securities provisions before executing instructions.

Transactions between Euroclear Bank clients are settled on a trade-by-trade basis, with simultaneous and final transfers of cash and securities in the books of Euroclear Bank.

Settlement over the Bridge with Clearstream Banking Luxembourg (CBL) also takes place according to Model 1 DVP, because there is simultaneous and final transfer of cash and securities between Euroclear Bank and CBL via the mutual cash and securities accounts that each holds with the other after each exchange. There are several exchanges each night and an Automated Daytime Bridge during the day.

External transactions (i.e. transactions that settle in a local market between a Euroclear Bank client and a local counterpart, which is typically a member of the local Securities Settlement System (SSS)) follow the DVP rules (if any) of the local market. Local market regulations and operating practices determine settlement with external counterparties, finality, and whether or not settlement takes place on a DVP basis.

79g. Please explain:
Please refer to the response to 79f above.

79i. Please explain briefly how these work:
We monitor the client during our relationship with them to ensure they continue to fulfil the criteria used for admission.

An automated tool is used for appropriate scrutiny and monitoring of transactions, account activity and customers in order to identify unusual and potentially suspicious activity.

80. Does the stock exchange have default protections that extend to the depository, such as the following? (Choose all that apply.)
- Margin requirements for stock exchange members
- Guaranty fund for stock exchange members
- Financial requirements for stock exchange membership
- Other (please answer 80a)
- No
Please identify both the frequency and the last date of testing for the following third party:

**Depository participants/members**

The design of our IT disaster recovery and our business recovery plans makes the activation of recovery plans transparent for our clients and other third parties. Therefore, we do not encumber our clients with our business continuity testing. We only carry out Business Continuity Plans (BCP) testing with critical infrastructures such as the national banks, SWIFT etc.

Tests are carried out regularly to make sure that the Euroclear Bank continuity infrastructure will perform in an emergency situation.

Euroclear maintains a yearly calendar of multiple tests. These are complementary in as far as they tackle different components of the recovery strategy. Every component is tested at least once a year, test reports are produced and the completion of any action plan resulting from the tests is closely monitored.

The tests include:

- IT Disaster Recovery testing. Four times per year, Production is switched between DC1 and DC2 to guarantee that the Production can be switched transparently between the sites, should an incident require us to do so. The latest production swap between DC1 and DC2 took place on 2 June 2018. The activation of DC3 is tested once a year. This was successfully tested on 24 February 2018. Other disaster scenarios are tested technically by the IT teams.

- Office switch test. During an office switch test we simulate the loss of an office and the ability of the other offices to maintain business operations and deliver services in a 'business as usual mode'. Loss of an office could be for multiple reasons: evacuation, office not physically reachable (e.g. blocked by a strike), office cannot be used (e.g. power cut, air conditioning not working, etc). Exercises simulating the loss of an office site are conducted at least once a year with critical business operations and IT support teams.

- Crisis Management rehearsal exercises. We train the crisis managers and test the crisis management procedures via desktop or simulation exercises. Several of these exercises are organised each year, as standalone activities or combined with the other activities. The latest exercises took place in May 2018 for the Euroclear Bank Board and June 2018 for the Euroclear Bank Management team.

- External crisis management testing. Recent tests include:
  - The 'Non Standard Crest Closure (NSCC)' exercise, an industry-led desktop exercise organised by the Sector Exercising Group (SEG) under the remit of the Cross Market Operational Resilience Group (CMORG). It took place on 24 February 2016. The exercise was developed and facilitated by Euroclear UK & Ireland (EUI). The NSCC is a joint BoE and EUI contingency capability to cope with the impact of a major operational disruption in the CREST system or the wider market, which prevents the completion of the normal CREST operational day.

  - Netherlands National Bank (every two years): the test took place on 17 October 2016.

  - Banque de France: March 2016, major exercise lead by the Paris Police Zone to simulate a century flooding by the river Seine, preparation is on-going for a November 2018 exercise.
Walk-through events. Walk-through training is provided annually for all staff to familiarise them with their specific departmental plans and to validate those plans. These are organised as part of the annual Business Impact Analysis review.

Evacuation exercises. Annual evacuation exercises are conducted at each of the sites; where possible, these are linked to a crisis scenario. The last exercise took place in November 2017 for the two Euroclear buildings in Belgium, November 2017 for our office in Hong Kong, and April 2017 for our office in Poland.

Telephone call-out plan. A mass notification tool is in place to ensure that all employees can be notified of an incident. The tool reaches staff using a combination of SMSs and email messages. It was last tested in June 2018. In addition to that, critical departments maintain call out plans.

Remote access working is regularly tested and activated in the event of widespread public transportation strikes (e.g. May, June, July 2018), with no impact on our clients. Teleworking was also extensively activated in response to the 2015/2016 terror attacks:

- November 2015: in response to the Belgian authorities decision to raise the terrorism threat for the Brussels region to level 4, the maximum level
- March 2016: following terrorist attacks in Brussels

Given this decision by the authorities, our group-wide crisis management team decided to implement business continuity plans to ensure the safety and security of our staff in Brussels. These plans are robust and, as such, thanks to a variety of measures, such as teleworking and using the resources we have in other locations in the group, there was no interruption to services that we provide to our clients.

81c. Please identify both the frequency and the last date of testing for the following third party:

**Stock exchange**
We perform regular testing with the stock exchanges. The testing dates vary with the different stock exchanges, but we can confirm that they are tested at least every 12 months and that all scheduled tests were duly carried out.

81d. Please identify both the frequency and the last date of testing for the following third party:

**Central bank**
The Business Continuity Planning and the relevant testing are performed on the Euroclear group level. The testing with the Central Banks is typically performed by the CSDs under the Euroclear Group.

Recent testing includes:

- The 'Non Standard Crest Closure (NSCC)' exercise, an industry-led desktop exercise organised by the Sector Exercising Group (SEG) under the remit of the Cross Market Operational Resilience Group (CMORG). It took place on 24 February 2016. The exercise was developed and facilitated by Euroclear UK & Ireland (EUI). The NSCC is a joint BoE and EUI contingency capability to cope with the impact of a major operational disruption in the CREST system or the wider market, which prevents the completion of the normal CREST operational day.
- Netherlands National Bank (every two years): the test took place on 17 October 2016.
- Banque de France: March 2016, major exercise lead by the Paris Police Zone to simulate a century flooding by the river Seine, preparation is on-going for a November 2018 exercise.

81e. Please identify both the frequency and the last date of testing for the following third party:

**Local brokers**
Local brokers in relationship with us are typically our clients. The design of our IT disaster recovery and our business recovery plans makes the activation of recovery plans transparent for our clients and other third parties.

Therefore, we do not encumber our clients with our business continuity testing. We only carry out Business Continuity Plans (BCP) testing with critical infrastructures such as the national banks, SWIFT etc.

81f. Please identify both the frequency and the last date of testing for the following third party:

**Any other third party**
We perform testing on agreed arrangements with external parties, such as:

- Crisis communication modes at least twice a year (unless they have been activated in real life situation),
- Reciprocal plans with other FMIs (eg: NCBs, other (I)CSDs, CCPs...), and we participation to Market exercises where and when they are organised
Three data centres

Euroclear operates two main 'hot standby' data centres, DC1 and DC2, located at sufficient distance from each other to mitigate the risk that a single event halts operations. Sites are linked by real-time synchronous data mirroring and load balanced networks. The effectiveness of the data centres' operational and recovery procedures is ensured through the transfer of production activity between sites at least four times a year.

Should both DC1 and DC2 become inoperative, a third data centre (DC3) - warm standby - based 300km away from DC1 and DC2 and not close to a nuclear plant, can take over full production volume in the event of a regional disaster affecting both other data centres. This site is asynchronous and enables the resumption of business critical services within the same business day if a major incident affects the other two sites. The regional recovery capability is tested annually.

Multiple offices

Euroclear operates a multiple office strategy whereby critical teams are located across at least two distant locations, and operations are conducted from different sites simultaneously. This set-up is operated on a continuous basis, thus ensuring sustained client services and operations following a major metropolitan-wide event.

Our operations sites are in:

- Brussels;
- our second Belgian office, located outside the metropolitan area around 20km from our Brussels headquarters;
- Krakow, Poland; and
- Hong Kong.

Operating from the different sites simultaneously increases the resilience to local and regional incidents and the flexibility of our response. There can be immediate continuity from one or several of the active sites if one of the offices is out of action.

Remote system access

Remote access fits within our risk and contingency approach to address staff unavailability. It is used in particular:

- in the event of a disruption to transport, extreme weather conditions or an issue affecting both Belgian offices, critical staff can connect from home via a laptop; and
- in critical processes, activities and staff are identified in detailed Business Impact Analyses (BIA) that form part of the departmental business continuity plans.

Teleworking is available to Euroclear employees, and clear eligibility criteria and security policies have been established. The Euroclear computer networks may be accessed remotely by authorised users through the authorised Euroclear remote access route (secure connection, for example strong authentication, VPN, Digipass etc.).

☐ Yes for all three years
☐ Yes for two of the last three years
☐ Yes for one of the last three years
☐ None of the last three years
☐ Not applicable
☐ Other (please answer 88a)

89. Does the depository maintain a reserve for operating losses?
☐ Yes (please answer 89a)
☐ No
☐ Not applicable
☐ Other (please answer 89b)

89b. If other, please explain:
As part of the capital requirements imposed on Euroclear Bank by the National Bank of Belgium (NBB), we put aside around EUR 300 million in capital to protect against operational losses. The NBB imposes stringent capital requirement on us. Euroclear’s Tier 1 capital adequacy ratio is approximately 38%, which enables the bank to meet NBB’s capital requirement comfortably.

When Euroclear Bank considers that a risk of loss is more likely than not, Euroclear Bank does provision the occurred incidents.

90. Has the regulatory body with oversight responsibility for the depository issued public notice that the depository is not in current compliance with any capital, solvency, insurance or similar financial strength requirements imposed by such regulatory body?
☐ Yes (please answer 90a)

Association members from time to time receive requests from their direct investor-clients for an informational copy of a depository's completed questionnaire. Such requests typically lead to interactions between personnel at the depository in question and member personnel or client personnel, or both. Those interactions take time and impose costs on both members and depositories.

Do you approve of Association members delivering a copy of your completed questionnaire to the member's direct client in response to the client's request?

☐ Yes
☐ No

Please provide any comments you have regarding the questionnaire.

PUBLIC AVAILABILITY

99. The AGC encourages respondents/depositories to make their answers to this questionnaire publicly available. Will you be making your response publicly available? (For additional guidance, please review the help feature to this question.)

☐ Yes (please answer 99a)
